RESPONSE TO NOTICE TO COMPLY WITH REQUIREMENTS
FOR PATENT APPLICATIONS CONTAINING NUCLEOTIDE SEQUENCE
AND/OR AMINO ACID DISCLOSURES

Box Sequence
Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

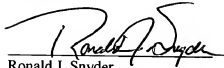

In the Official Action dated January 8, 2002, the Examiner indicated that the application failed to comply with the requirements of 37 C.F.R. 1.821-1.825, as the Raw Sequence Listing Contained an error in the Use of <<220>>.

Submitted herewith is a corrected computer readable form (CRF) copy of the "Sequence Listing" and a corrected paper copy as required by 37 C.F.R. 1.821(e) to define the organism as Apolipoprotein A-IV. Support for the correction may be found in the specification at pages 6-9. Applicants state that the content of the corrected paper copy of the Sequence Listing and the substitute computer readable form copy submitted herewith are substantively the same and are corrected to conform to the specification as originally filed, thereby including no new matter, in accordance with 37 C.F.R. 1.821(e), (f) or (g), or 1.825(b) or (d).

It is believed that the present submission represents a full and complete response to the Official Action, and consideration on the merits is respectfully requested.

Respectfully submitted,

DAVID Y. HUI
PATRICK TSO
